

### Environmental Policy

Hillmoore Fire Protection Limited recognises that its operations have an impact on the local, regional and global environment. It is our policy to ensure that all of our activities are conducted in a manner that is safe and our environmental performance meets the regulatory standards. The management are committed to continuous improvements in environmental performance and the prevention of pollution.

#### 1. Responsibility Of Products

The company considers the environmental impacts of its products at all stages of their life cycle – from design, to manufacturing, customer use, and finally disposal.

#### 2. Energy Use

The company will use environmentally safe and sustainable energy sources to meet our needs.

#### 3. Recycling

The company maintains that a primary part of its corporate environmental strategy is sustainable waste management and as such recognises its responsibilities to recycle materials wherever possible.

#### 4. Disposal Of Waste

We will minimize waste, especially hazardous waste, and whenever possible recycle materials. We will dispose of all waste through safe and responsible methods.

#### 5. The Supply Chain

We will work with our suppliers to ensure they recognise and reduce the environmental impact of their products and transportation.

#### 6. Transportation

Through co-ordinating route planning and delivery schedules this company seeks to realize dual benefits of reduced fuel consumption and lower exhaust emissions.

In order to minimise vehicle emissions that negatively impact on the environment and health, Hillmoore Fire Protection Limited is committed to reducing vehicle idling times at depots, in stationary traffic queues and at any other time unnecessary idling takes place. The company actively encourages drivers to reduce levels of idling.
